- Secondary School On-site Treatment
- Getting Ready Education Group
- Parent Education and Support Service
- Youth Affected by Substance Use of Others
- Street-Involved Youth Outreach
- Pregnant and Parenting Youth Outreach
- Community Education / Consultation & Training

OUR PRIORITIES 2019-2022

Sustainable & Solvent for Longevity

Emerging needs are funded and supported through collaborative partnerships.

Alternate funding sources are pursued.

Accreditation is achieved.

Relevant & Enriched Services

Services are relevant and designed with youth involvement.

Research informs potential new partnerships and site developments in underserved areas where youth are not self-identifying.

Programs and services action plans are developed in anticipation of funding.

Service Impact Authenticates AY Value

Social media presence is developed.

Youth, parents and community partners inform the service promotion strategies.

Stories promote the depth and impact of service outcomes.

Strength through Partnerships & Collaboration

Staff learn and develop from and through others.

We are more diverse, non-judgmental and inclusive through collaboration with other organizations.

Research provides the foundation for potential academic programs that can help us achieve our priorities.
